Go green – Recycle – Go green – Recycle

You can support our organization by donating your used cell phones and ink cartridges while helping save the environment from toxic waste!

- Supporting us during our recycling campaign, will help give old technology new life and keep them from polluting our landfills. If improperly disposed of, one cell phone can pollute up to 132,000 liters of drinking water.
- Your unwanted cell phones and ink cartridges will be recycled in accordance with EPA regulations and/or refurbished and reused.
